## Technical Data Sheet

### HYPE Organics Multi-Use Cleaner & Disinfectant

Certified USDA Organic | EPA Registered

#### PRODUCT DESCRIPTION

Organic Disinfectant, Bactericide, Virucide, Fungicide, Deodorizer, Cleaner and Disinfectant

HYPE Organics Disinfectant is EPA registered for control against gram-negative and gram-positive bacteria: Pseudomonas and Staphylococcus aureus. Viruses: Human Corona Virus. Quality assurance audits were conducted with EPA approved GLP lab practice standards for Mold/Fungi/Yeast/Mildew Spores: Trichophyton interdigitale. Bacteria has no known resistance to hypochlorous acid when applied at >163 ppm. Product is EPA approved as a Broad Spectrum, Hospital Grade, Food Contact Surface Disinfectant. No post-rinse required. Approved for application by spray, wipe, mop and immersion.

HYPE Organics Disinfectant is USDA Certified ORGANIC. United States Department of Agriculture has audited and certified that all ingredients and manufacturing processes meet National Organic Program Standards. This product is hypochlorous acid as-is, safe, non-toxic, touch and even ingest if accidentally licked by an animal. Product is safe to pour down drains and will not harm the planet.

Product can be used for residential and commercial cleaning, can be used to fog or mist the air to remove any harmful mold spores, smells, or allergens released into the air. HYPE Organics Disinfectant changes the way contractors, commercial cleaners, homeowners, employers, mold remediation and restoration technicians remove mold and other harmful pathogens in a safe and healthy manner.

Product effectively eliminates odors and leaves only a gentle clean smell, similar to swimming pool water. The chlorine smell will disappear in 5 to 10 minutes. People, pets, food and plants do not need to leave the room, home or building while product is in use.

## PHYSICAL PROPERTIES

<b>Packaged:</b>	1 gallon, 32 oz, 16 oz, Wipes (100 ct)
<b>Weight per Gallon:</b>	3.84kg
<b>Appearance:</b>	Clear
<b>Scent:</b>	Gentle & Light Chlorine
<b>pH:</b>	5.5 - 6.0 (near-neutral)
<b>PPE:</b>	None Required
<b>Non-Corrosive:</b>	YES
<b>Shelf Life:</b>	EPA Registered 4 mos, USDA Organic 12 mos
<b>EPA #:</b>	97801-1
<b>USDA Certified ORGANIC #:</b>	Z-6999995-2008
<b>Coverage per Gallon:</b>	1,000 - 1,200 square feet

### Active Ingredients:

Electrolyzed Water 99.4%, Sodium Chloride <0.5%, Hypochlorous Acid <0.04%, Sodium Hypochlorite <0.005%

## APPLICATIONS

### General Cleaning & Disinfecting:

HYPE Organics Disinfectant is ideal for cleaning, disinfecting and deodorizing in commercial or residential environments. It cleans and disinfects in one step making it a fast and effective product for infection control.

### Porous Materials:

Kills and inhibits odor causing bacteria, mold, and other organisms on wood walls, wood flooring, trim, lumber, concrete and other types of walls and paneling.

## APPLICATION PROCEDURES

### TO CLEAN:

Wet the surface and wipe clean.

### TO DEODORIZE:

Wet the surface and wipe clean. Allow to air-dry.

### TO DISINFECT:

Pre-clean heavily soiled surfaces. Wet and spray the surface, wipe with cloth or mop. Let product remain on surface for 10 minutes before wiping clean.

### TO SANITIZE:

Wet the surface. Allow to air-dry. No rinsing required.
